Forecast for Sunday 05 Nov 2023

Weather: A day of bright spells and occasional blustery showers, these focused across western areas of the Park where some could turn heavy with the risk of isolated hail and thunder. Many hills in east staying dry and enjoying the best of the sunshine through the day. Likely cloudier through the evening with more frequent showers expected.

Chance of cloud-free hill tops above 600m: 60% in west, but 40% til late morning. 80% in the east.

Low cloud and visibility: Mainly good or very good, becoming briefly moderate or poor in showers. Very poor within cloud with bases lowering 500m at times, particularly in the west during the morning and in showers.
